

Put Your Half-Ton to Work

Why wait around for someone else when you can do it yourself? You've got a half-ton pick-up. The WESTERN® HTS is a full-size, full-featured snow plow designed for today's lighter half-ton, four-wheel-drive trucks.

Description

FITS ALL 1/2 TON TRUCKS!

2-YEAR WINTER WARRANTY

NIGHTHAWK halogen headlamps feature state-of-the-art reflector optics that illuminate the entire plowing area with a smooth, wide beam pattern.

Vented light bar permits additional air flow to the radiator.

The two-spring trip blade protects your snowplow and truck when the snowplow strikes an obstruction. Elastomer trip pads further reduce excessive jarring and soften the blade return when tripping occurs.

Six vertical ribs and the exclusive WESTERN POWER BAR provide unmatched structural reinforcement.

Covered hydraulic system is protected from the elements

One-side hookup

The simplified UltraMount® mounting system is fast and easy. Simply drive into position, letting the flared receiver brackets guide the plow into place, rotate the handle to connect the plow, plug in the electrical connectors, and you're ready to go. The HTS straight blade snow plow uses existing UltraMount vehicle mounts.

Hydraulic Scrape Lock

hydraulically locks the blade down for enhanced scraping and clean back-dragging performance.

75-degree Attack Angle

Most aggressive of any plow in its class.

15 1/2-inch Curl Radius

Enhanced snow rolling action for maximum plowing efficiency.

Steel Moldboard

Technical Specifications

| Blade Width | Blade Height | Blade Gauge | Trip Springs | Vertical Ribs | Angling Rams | Plowing Width (full angle) | Approx. Weight (less mount) | Disc Shoes | Cutting Edge |
|-------------|--------------|-------------|--------------|---------------|--------------|----------------------------|-----------------------------|------------|--------------|
| 7' 6" | 27" | 14 | 2 | 6 | 1 1/2" x 8" | 6' 7" | 412 lb | OPTIONAL | 5/16" x 6" |
