

Here is the New Western Poly 7'6" Midweight Ultramount for 1/2 ton trucks. If you do not like the New Western HTS this is a heavier plow that will fit the same trucks. Western Uses a Pivot bar to allow the blade to pivot on uneven ground to make both easier hook up and use

Technical Specifications

Model	Blade Width	Blade Height	Blade Gauge	Trip Springs	Vertical Ribs	Angling Rams	Plowing Width (full angle)	Approx. Weight (less mount)	Disc Shoes	Cutting Edge
